WHY LIN·BIT
BENEFITS & USPs

LINBIT Success Quadrants:

Based on Open Source Technology
Highest storage performance + Ease of Use, embedded in *Linux Kernel* since 2010, on the *CNCF Storage Landscape*

Worldwide 24/7/365 Support
The LINBIT team covers 4 continents in 5 different languages, time zones, and cultures. LINBIT is *'community driven'* and takes feedback seriously

Over 20 years Linux Experience
in High Availability with DRBD and SDS Solutions (LINSTOR). *IOPS World Record Holder* since 2020

Industry Leaders Trust in LINBIT
Finance, IT, HW vendors, Cloud Providers & Telco's work with LINBIT either via OEMs, VARs, or custom subscriptions (HA, DR, SDS)
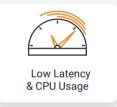

LINBIT Game-Changers:

Open Source, no Vendor Lock-in	High Performance	Low TCO	Scalability	Low Latency & CPU Usage

Native Integrations into:

kubernetes · OPENSHIFT · openstack · Open Nebula · cloudstack open source cloud computing · (rocket) · PROXMOX · HashiCorp Nomad

Unique Selling Points:

- Multi-platform support, Hardware agnostic
- Separation of data and control planes (LINSTOR): this eases day-2-operations & diagnosing issues
- Reduced automated failover time from 15min to 45sec
- Built-in Backup and Disaster Recovery capabilities
